Company Overview

Sevenseas Voyager Logistics L.L.C. is a Middle East-based logistics partner delivering reliable, efficient, end-to-end freight solutions for regional and global businesses.

As the Middle East arm of the Sevenseas Group, we combine strong local expertise with global reach to move cargo smoothly across key trade lanes. Built for today's fast-moving trade world, our focus is seamless execution, regulatory precision, clear communication, and partnerships that last.

What We Do

A fully integrated logistics ecosystem designed to handle both routine shipments and complex cargo movements.

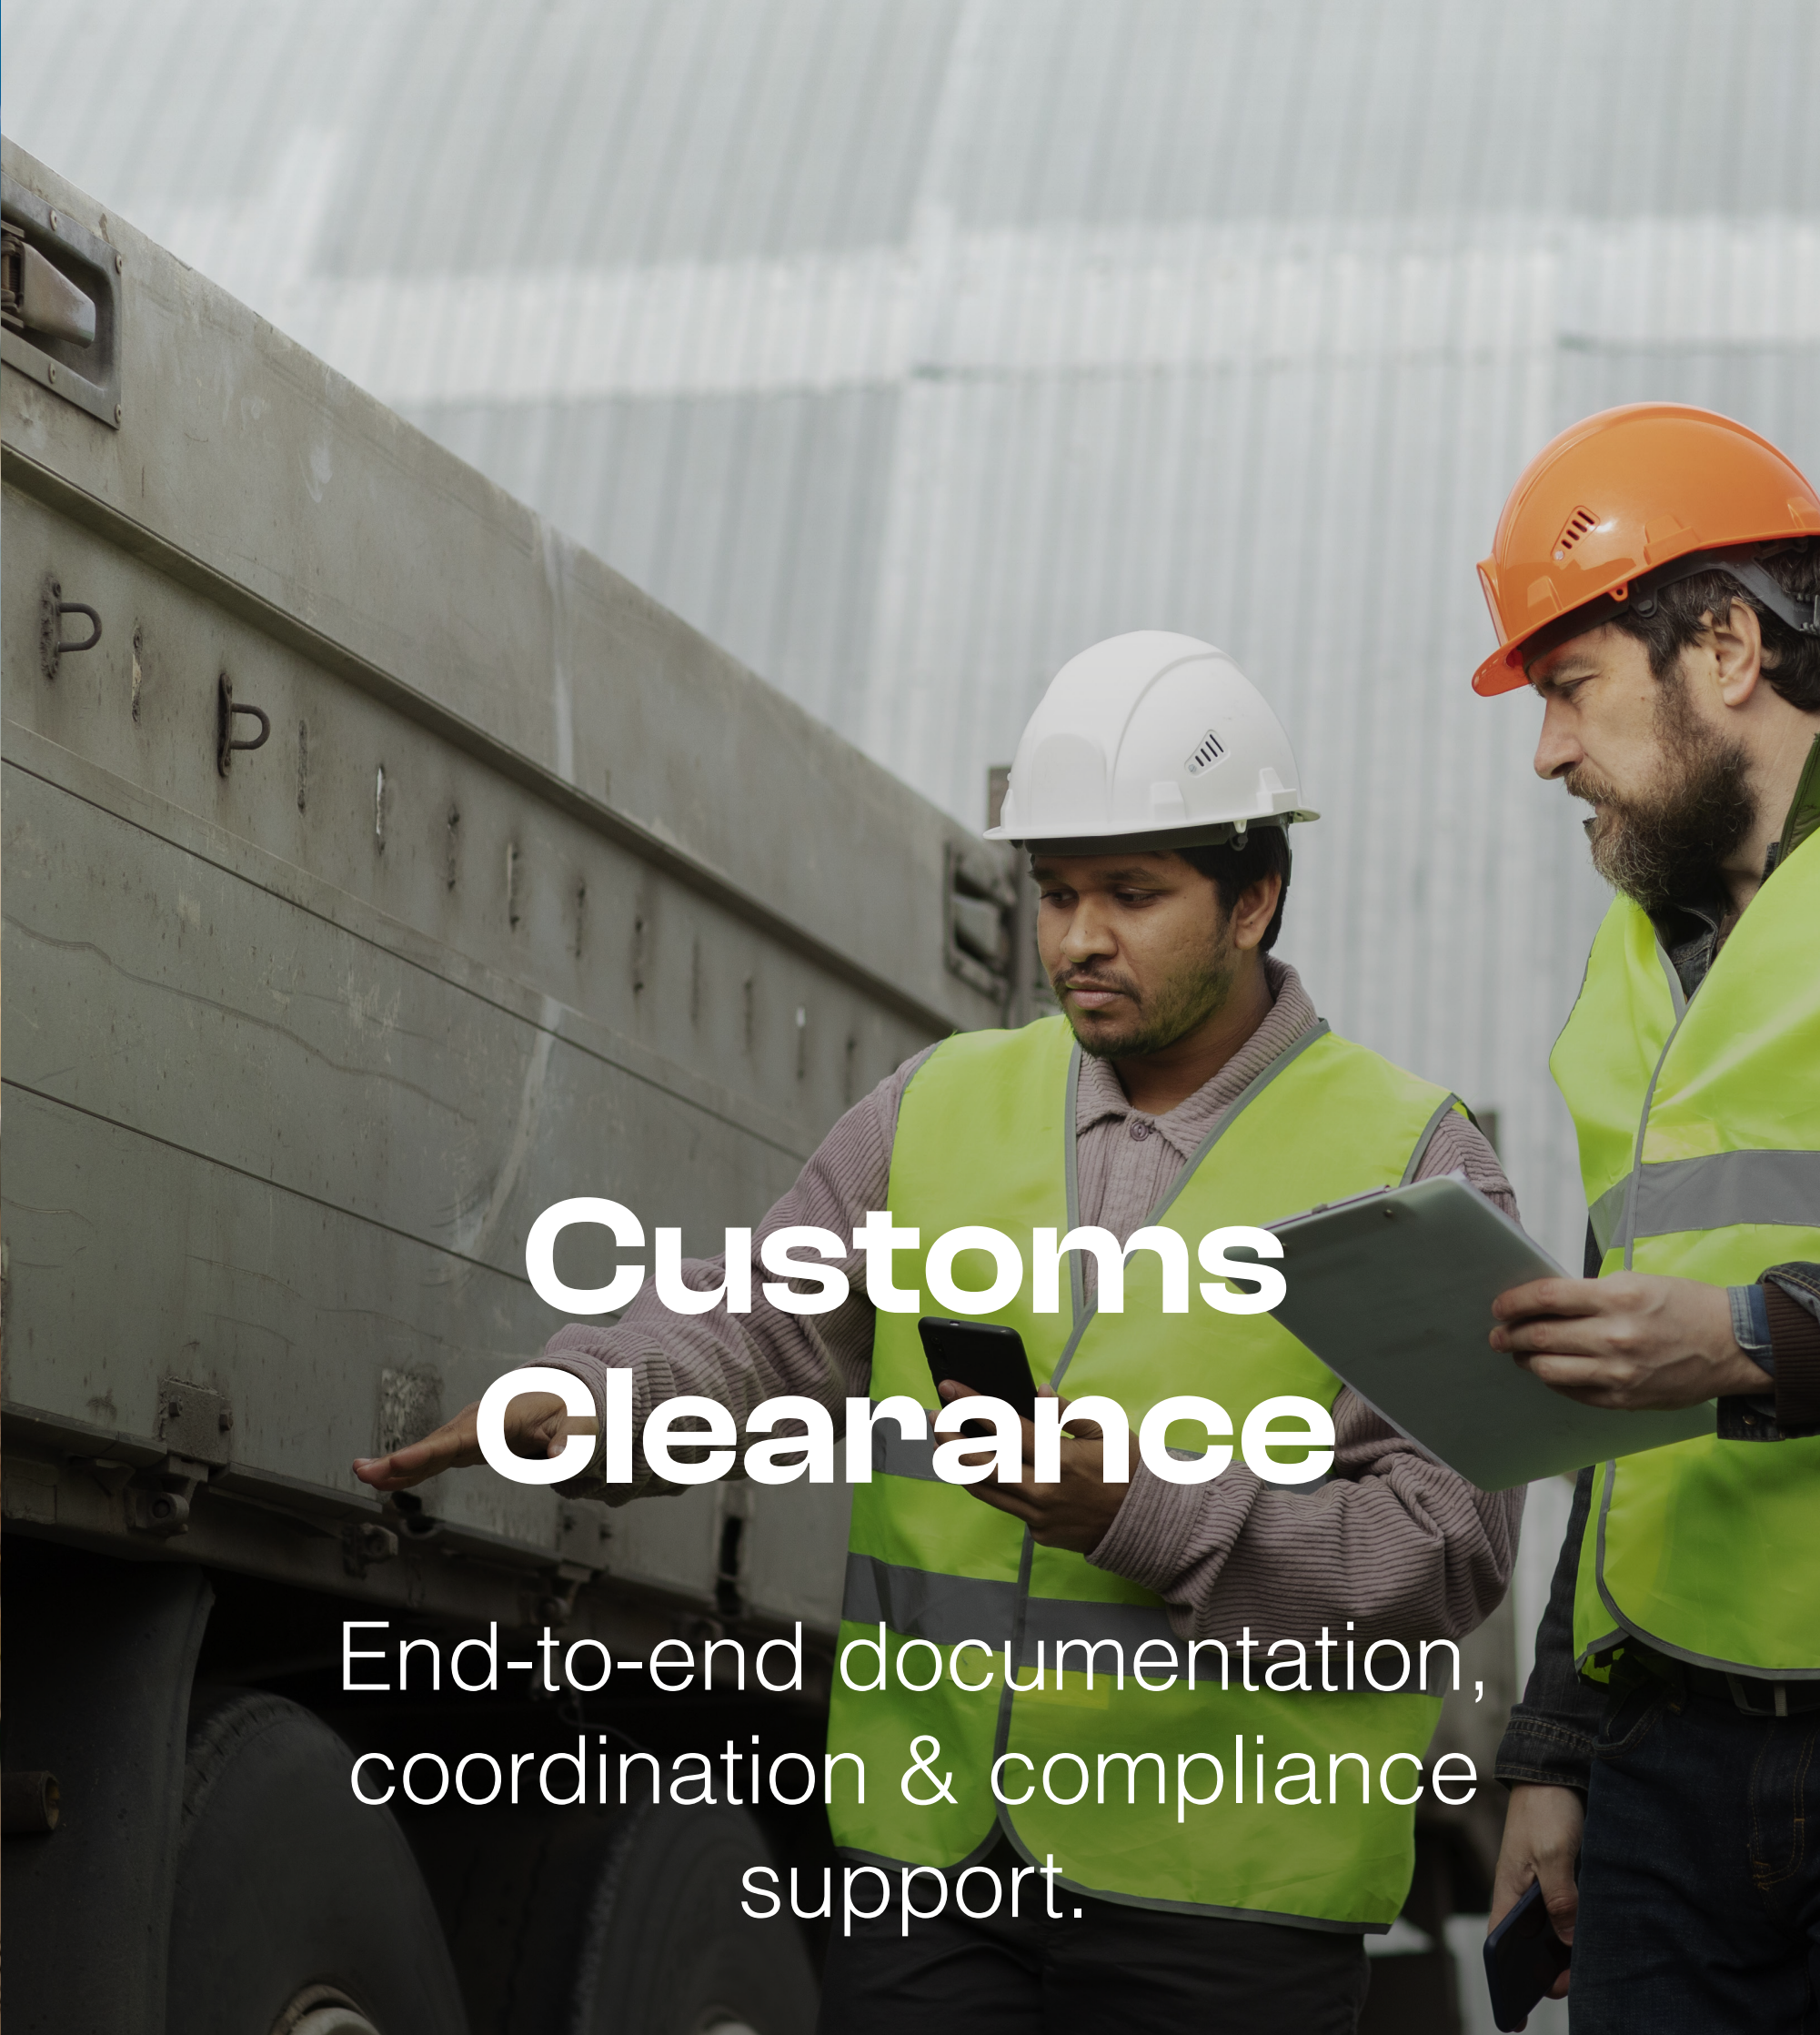

Ocean Freight Forwarding

Reliable and cost-efficient sea freight solutions across major trade lanes.

Air Freight Forwarding

Time-critical air cargo services with precision planning and execution.

Customs Clearance

End-to-end documentation, coordination & compliance support.

Project Logistics & Freight Chartering Services

Specialized handling of oversized, heavy-lift and project cargo.

Cargo Packing Services

Secure and compliant packing solutions tailored to cargo requirements.

Cross-Border Transportation

Smooth and compliant movement across regional and international borders.

Storage & Distribution

Safe storage and efficient distribution to support supply chain continuity.

Integrated Logistics Advantage

With a legacy of 25 years in logistics, Sevensseas Voyager Logistics L.L.C. combines freight forwarding, customs expertise, transportation and storage under one operational framework.

This integrated approach allows us to manage standard consignments as well as specialized, oversized and project cargo with consistency and control.

Operational Strength

Our operations are powered by an experienced logistics team with strong regional market knowledge and hands-on expertise in cross-border movements. Every shipment is managed with a clear focus on accuracy, accountability & execution excellence.

From route planning and documentation to customs coordination and final delivery, each stage is carefully monitored to ensure smooth movement and on-time performance.
